SUMMARY

I am a passionate Backend Developer proficient in Node.js and Express, with hands-on experience in MongoDB and PostgreSQL databases. I've created several personal and collaborative projects and am currently looking for internships or job roles to further enhance my skills. I am keen to gain professional growth through internships and remain dedicated to continuous learning. My aim is to build efficient backend systems by using my skills in optimizing code, and working well with others to achieve great results.

EDUCATION

Rosebud School

High School
2021 - 2023
